# EXHIBITIONS & DISPLAYS

Sometimes it's not just what you say, it's how you look when you're saying it.

Our Exhibit range gives you the tools to emphasise your message. For the first time, create enormous eye-catching displays... without the eye-watering price tag.

We've invested in the very latest, high-end, direct-to-fabric printing technology. Our own production hub employs talented seamstresses and technicians, ready and skilled to turn your ideas into a wonderful fabric reality.

Seeing is believing. Drop by your neighbourhood Nettl studio to goggle at the samples and talk through options.

Make the most of your next exhibit.

*Let's go!*

# DISPLAY STANDS

All our freestanding displays are highly portable. Clip together the frames, then pull over the fabric graphic.

Use at networking meetings, exhibitions or for in-store point-of-sale displays.

When it's over, dismantle in minutes and be on your way again – each comes with a carry case.

## HOW FABRIC DISPLAYS WORK

**Fabric Displays** are made up of two main components — a strong, lightweight, tubular aluminum frame and a printed fabric cover.

The 7.67 oz/yd<sup>2</sup> Stretch fabric cover is available printed on both sides. Designed to fit snugly over the frame, it is secured at one edge with a zip fastening. The fabric cover is changeable and additional covers can be ordered separately.

These 'next generation' displays deliver maximum impact and completely eliminate the problem of visible join lines on larger displays.

Fabric Display frames utilise a simple 'click together' mechanism.

Each part is numbered for easy identification and quick assembly.

Stretch the fabric graphic over the frame and zip up.

All Fabric Display frames are supplied with a carry bag for easy transportation and storage.

Each stand clicks together in a few minutes and then simply stretch over the printed fabric graphic.

Ever had to build one of those frames with magnetic bars and panels of graphics? Not fun.

Our curved backdrop displays pop up in minutes. Each has a continuous graphic, so you don't need to worry about lining up panels – stretch your message across the whole stand.

They're optionally double sided too. And the magic of stretchy fabric is you can flip which side is front each time. One message at one event, flip, different message at the next.

# GAZEBOS

This 'Marquis' gazebo has a fully printed canopy plus one half height wall and one full height wall – \$1793

Frame contracts to compact size.

Pull the legs outwards – the frame builds itself.

Pop the canopy on top.

Arrange the corners of the canopy.

Printed gazebos are all the rage at farmer's markets, festivals and fairs. Our range now features new lower cost options, so you can make the most of your marketing budget.

In every case, the gazebo frame is the same. It's compact for storage, then pops up and locks into place.

You've got a choice of a plain black canopy, your name or logo printed on the front fascia or your branding fully printed on all sides and the top too. Each canopy is a water resistant material that'll keep you and your stock dry if it rains.

Clip on the number of sides you want. A full height wall hangs from the top, or you can choose half height walls, which come with a rail. Why not print a half height wall for the front too, to act as a cool branded counter?

Remember you can buy all the printed parts separately, so you can change your messages for each season or each event, and keep using the same frame. Neat!

# DESIGN YOUR GAZEBO

## STEP 1 CHOOSE YOUR SIZE

Our bestseller is 10ft x 10ft, bigger than typical domestic gazebos. Our most impressive is the double-width 20ft edition and for those that like something in-between, the 15ft edition.

This 'Viceroy' gazebo has a fascia printed canopy plus one half height wall and one full height wall - \$1190

10 x 10 x 10ft Gazebo – frame & canopy  
Printed on waterproof 8.41 oz/yd<sup>2</sup> Tent Fabric

Walls full colour print on one side or both sides  
Fire retardant and fade resistant  
Supplied with heavy duty steel frame, carry bag, ground pegs and guide rope

## STEP 2 CHOOSE YOUR CANOPY

Our lowest price is a black unprinted canopy. Upgrade and get the fascia pelmet printed. Or, be bold and opt for the whole top and pelmet printed on all sides.

	10x10ft	10x15ft	10x20ft
Black unprinted 'Chief'	\$496 <small>FDSMUMFC</small>	\$704 <small>FDSMU4FC</small>	\$920 <small>FDSMU6FC</small>

## STEP 3 THEN ADD YOUR WALLS

Most people finish their gazebo with walls. The most popular combo is one full height back wall and two half height sides. Half height walls include a hanging rail – put on the front to hide a table if you're selling stuff over the counter.

# FLAGS

Let's do a little experiment. On your way home tonight, count the number of flags you see. They're absolutely everywhere.

Why's that? Well, for a couple of hundred bucks, you get a three metre high, fluttering, piece of eye catching marketing for your business. They are such great value, it's no wonder businesses are lining them up on their car park and forecourt and outside their front door.

All our flags are suitable for use indoors and outdoors. They're double-hemmed for durability, with a strong pole pocket which is designed to be used multiple times.

## CREATE YOUR FLAG

IN THREE EASY STEPS

### STEP 1 CHOOSE YOUR **STYLE**

Choose from a Teardrop, Quill or Empire shape, depending on your personal taste. See next page.

### STEP 2 CHOOSE YOUR **MATERIAL**

Lowest cost option is a single sided flag material. In exposed environments, choose Vent material. Or go double-sided and your message can be seen the right way round on both sides.

### STEP 3 CHOOSE YOUR **BASE**

Get the right base for the surface you want to display your flag. We've got options for indoors, for grass and outdoor pavements.

## STEP 2

# CHOOSE YOUR FLAG MATERIAL

## SINGLE SIDED

The lowest cost option. Your  
design will be printed one  
side. If viewed from behind,  
you'll see a mirror image on  
the reverse.

## DOUBLE SIDED

Have a different message on  
each side of the flag, or  
show the same message on  
both sides – we put a  
blackout divider in between  
to prevent showthrough.

## VENT WEAVE

For more exposed  
environments, opt for a  
single-sided vent material  
which allows maximum air  
to pass through.
